MANITOBA TELEPHONE SYSTEM

Terms and Conditions under which Service is Furnished

CONDITIONS OF SERVICE

(1) Telephone instruments and connecting lines are furnished to subscribers to be used in accordance with the rules as prescribed by the Department from time to time, and are to be used only by the subscriber, his agents or employees when engaged upon his business, and must not be used for transmitting, receiving or delivering any message or communication in respect of which a consideration has been or is to be paid by any other party, except as permitted by the rules of the department.

(2) Applications for service shall be for a period of three months unless otherwise specified, and shall continue in force thereafter until cancelled or terminated by the subscriber or the Department by giving ten (10) days written or printed notice of his or its intention to do so.

Applications for Rural Party Line service shall be for a period of one year.

The minimum charge for a business service shall be $15.00, including service connection charge for any period up to one month. For any period of over one month's duration a proportionate monthly rate shall be charged.

The minimum charge for a residence service shall be the equivalent of the regular three month's term.

SUSPENDED SERVICE

(3) Should a subscriber to residence service desire to temporarily disconnect the service on account of closing his residence, he may do so without cancelling his agreement or having the telephone removed by requesting a suspension of service subject to the following conditions:

(A) Suspension of service is arranged for residence service **only** and may commence any time after the expiration of the initial (three months) contract term.

(B) The charge for suspended service will be made on the basis of $1.00 per month and will apply in place of the regular monthly rental charge, effective from date of disconnection

(C) The period of suspended service may extend from a minimum of one (1) month to a maximum of seven (7) months. No charge will be made to disconnect or reconnect the service.

USE OF TELEPHONES

(4) The lines and instruments over which the service is furnished remain the property of the Department, and subscribers must not use or permit any electrical or mechanical connections or apparatus being made with the said lines or instruments without the written consent of the Commissioner.

(5) The uninterrupted working of the telephones and lines is not guaranteed, but the Department shall undertake to make repairs with all reasonable despatch.

(6) The authorized employees of the Department shall have access to the premises of subscribers at all reasonable times for the purpose of inspecting, repairing or removing the lines and instruments.

(7) Telephone service on the flat rate basis will not be furnished subscribers where the equipment is accessible to the general public, and the right is reserved to remove the equipment of subscribers who permit the use of their service by the public. Persons desiring the use of subscribers' telephones should be referred to the nearest Public Pay Station.

(8a) If a telephone installed for service at the residence rate be used for the purpose of a business or profession, or otherwise than for the usual requirements of a residence the Department may charge the business rate for such service by and through the said telephone, without regard to the date to which the subscriber has paid for service at the residence rate.

(8b) The use of Business or Residence telephone service for gambling or other illegal purposes—the Department may, upon reasonable notice to the subscriber, terminate such service without liability on its part.

(9) The use of profane or improper language or the use of the Department's service for annoying other persons while using the telephone is strictly forbidden, and the service of any subscriber who persists in doing so may be discontinued.

(10) **Breakages and Damages**—All ordinary expense of maintenance and repairs, unless by special agreement is borne by the Department and upon termination of service any equipment furnished by the Department shall be returned in good condition, allowance being made for reasonable wear and tear. In the case of damage to or destruction of any equipment, not due to ordinary wear and tear, the subscriber, on demand, shall pay to the Department the cost of replacing the equipment or of restoring it to its original condition.

The subscriber shall not without the consent of the Department, rearrange, disconnect or remove or permit others to do so, any equipment or wiring installed by the Department.

(11) The subscriber shall notify the Department in writing whenever alterations or new construction on premises owned or leased by him necessitate changes in the Department's wiring or equipment.

The regular charges covering such changes will apply.

PAYMENT FOR SERVICE

(12) Payment of the annual rental shall be made monthly in advance, excepting the first payment from Rural Party Line subscribers, which shall be six months in advance, and entitles the subscriber to service with all other subscribers connected to the same exchange area. Regular toll rates will be charged for all service to points outside of the exchange.

(13) Subscribers shall pay monthly at schedule rates for all toll messages, and shall be responsible for all charges for messages originating at the station or stations for which they contracted, including charges for messenger service and charges for toll messages received at the subscriber's station on which the charges have been reversed with the consent of the person called. *The charges for Long Distance calls are billed monthly, and cover the period from the 21st of the preceding month to the 20th of the following month, inclusive.*

(14) *All accounts are due and payable when rendered, and payment should be made upon receipt of the bill. A discount of 15c. per line will be allowed on monthly bills for Exchange service if paid on or before the* ***20th day of the month*** *in which they are due. No discount will be allowed on the initial payment for Exchange service. Failure to receive bill does not entitle subscriber to the discount. The service of subscribers whose accounts remain unpaid after the 10th day of the following month may be discontinued without further notice. If service is discontinued for non-payment of the account a charge of $1.00 will be made for re-connection.*

MOVING AND EXTRA CONSTRUCTION

(15) The telephone is first located where the subscriber directs, and must not be moved or otherwise interfered with. When a subscriber desires to have the telephone moved to any other location he is requested to notify the Commercial Office verbally or in writing at least ten days before the change is required. On account of the large number of orders received about the first of May and the first of October each year, ample advance notice (twenty days if possible) is therefore requested, to enable the change to be made with the least possible interruption to the service. The work will then be done as promptly as possible at the expense of the subscriber.

(16) When it is necessary to erect poles and other appliances on the private property of the subscriber in order to carry the wires from the road allowance or street to the subscriber's premises, such poles and other necessary appliances in connection therewith will be supplied and erected by the Department at the expense of the subscriber.

(17) **Temporary Construction** — Applicants for telephone service on premises which are not reached by the Telephone Department's standard construction will be required to pay the labor and incidental expense charges of temporary construction work in addition to the regular charges for the service.

(18) **Excessive Installation Costs**—Where the cost of installing extensions to existing equipment is excessive, a portion of such costs will be charged to the subscriber in addition to the regular charges for the equipment.

(19) **Wiring in New Buildings**—In buildings requiring special cables and wiring to furnish telephone service, the owner must install at his own expense during the course of construction, conduits and other necessary fittings for the distribution of the cables and wires in accordance with the specifications of the Telephone Department. Changes in the location of the cables, wires, or terminal boxes requested by the owner after installation, will be made at the expense of the owner.

TELEPHONE NUMBERS

(2) A subscriber's telephone number is not a part of the application for service, and subscribers are requested not to advertise their telephone numbers as the Department reserves the right to change such numbers at any time to meet the requirements of the service.

UNSATISFACTORY SERVICE

(21) All complaints should first be made to **Complaint Department.** If service continues unsatisfactory, write or telephone **Commercial Manager.**

(22) The Department reserves the right to cancel the agreement and remove the service of any subscriber for violation of any of the Rules and Regulations herein contained.

SPECIAL NOTICE

All employees of the Manitoba Telephone System authorized to enter the premises of subscribers to install, remove or repair lines or instruments are required to wear a badge to be shown upon request.

Please do not admit any person claiming to be an employee of Manitoba Telephone System unless he shows the Department's badge.

DIRECTORY REGULATIONS

All directories remain the property of the Manitoba Telephone System, and are loaned to the subscribers for their use. Superseded copies of the directory should be disposed of in the interest of the service, as much annoyance and waste of time is caused by calling wrong numbers from obsolete directories. Subscribers are furnished free one copy for each dial equipped instrument. **Additional copies will be charged for at the rate of 75c per copy. Outside Province, $1.00, including postage.**

CLOSING COPY

Directory copy will be closed on the following dates:

JANUARY ISSUE....NOVEMBER 1ST
JULY ISSUE.....MAY 1ST

All new names, changes or corrections, must be furnished the Commercial Manager, Portage Avenue East, in writing, previous to the aforesaid dates. No entries may be made after the dates set.

The right is reserved to change dates of publication from time to time as may be necessary to meet the requirements of the Telephone service, without notice.

For each individual exchange line one single line entry in the alphabetical list is allowed each subscriber without charge. Each business subscriber is entitled to one (only) single line entry in the classified business section without charge. All other listings will be charged for in accordance with approved schedule of rates and in the case of paid directory listings and joint user service where the listing has appeared in the directory, the charge due to the end of the effective period of such directory shall be paid.

Errors which may appear in this directory or omissions should be reported to the Commercial Office in writing so that same may be corrected in the next issue.

Every precaution is taken to prevent errors or omissions in the directory, and the Manitoba Telephone System assumes no liability whatever for damages caused to subscribers by such errors or omissions in the making up and printing of this directory or be a party to controversies arising between subscribers as a result of listings published in its directories.

USE THE DIRECTORY, never try to remember a telephone number. It is all right if you do remember but if you have the least doubt—**CONSULT YOUR DIRECTORY,** thus saving time and trouble not only for yourself but also for the party whom you have carelessly disturbed by calling from memory.

Instructions Relating to Automatic Telephones . . . IMPORTANT

(1) **REMOVE RECEIVER** from hook before operating dial.

(2) **LISTEN FOR THE DIAL TONE**—an interrupted clicking sound indicating that the line is ready to receive a call.

(3) **BRING THE FINGER** directly to the finger stop.

(4) **DO NOT** force the dial back; remove your finger and let it return to stop before dialing the next digit.

(5) **ALWAYS HANG UP RECEIVER** before making a second call.

(6) **HANG RECEIVER ON HOOK (SMALL END UP)** when through talking. Otherwise no one can call you.

(7) **BUSY BUZZ** sound in your ear means the line you call for is busy.

(8) **A HIGH PITCHED CONTINUOUS TONE** indicates a **NON-EXISTING** Number. Consult your **DIRECTORY** or call **INFORMATION.**

(9) **EXTENSION TELEPHONES.** When using always listen and make sure that line is not already in use. If connection is accidentally broken it should be restored by calling party.

Information and Complaint Department

Information regarding subscribers whose numbers do not appear in this Directory, or whose Name or Street address has been changed, call Information 102.

Information operators are **not required to** supply information already contained in this Directory to subscribers who are supplied with a copy.

Interruptions or complaints re service, report at once to Complaint 103.

For Long Distance dial 0, Transcona subscribers call Long Distance.

In case of fire see page 3.

SPECIAL NOTICE

Attachments to Telephones—Subscribers are supplied with all Telephone Apparatus necessary for good service, therefore the attachment of the various unauthorized devices offered for sale, which are supposed to eliminate noise, improve the transmission, supplant the Telephone Directory, etc., cannot be permitted. All such devices are unnecessary and many are detrimental to the service. They are made simply to sell and with the completion of the sale the selling agent's interest ceases. Should unusual conditions necessitate the use of special apparatus, the Department will be glad to furnish the same at reasonable rates.

LONG DISTANCE RATES AND THEIR ADVANTAGES

When you wish to make a Long Distance call dial "0."

There are two classes of Long Distance calls, Station-to-Station and Person-to-Person.

A Station-to-Station call is one on which you are willing to talk to anyone who answers the called telephone.

A Person-to-Person call is one on which you desire to talk to a particular person.

On Person-to-Person calls more operating work and greater use of toll lines is required, and the rates are higher than for Station-to-Station service.

To aid in deciding what type of call will best serve your purpose, it will be helpful if you will read completely the following paragraphs:

Station-to-Station Service—

Station-to-Station service should be used when you are willing to talk with anyone who answers the called telephone. On Station-to-Station service the call can be completed as soon as the distant telephone is answered, while on Person-to-Person service, the particular person desired must be located and called to the telephone.

How Station-to-Station Calls Save Money—

Station-to-Station calls can be used for a large part of your business or social calls, but you may be able to make greater use of this lower priced service if, just before you place your call, you will analyze the probable conditions in the office or the home of the person wanted.

For example, if it is possible that Mr. Brown may be out, but his clerk can give you the information you want, a Station-to-Station call will meet your needs. Or, if you are reasonably sure that Mr. Jones will be at home at a certain hour, a Station-to-Station call could be made advantageously.

Also, by making previous arrangements, the person you want could be near the telephone at the time you put in your call.

How To Make a Call—

If you desire to place a Station-to-Station call, you should say, for example, "I want to talk to Brandon, telephone number 2351," or "I want to talk with anyone at Mr. C. H. Smith's residence, 220 Victoria Avenue, Brandon."

If you want Person-to-Person service, you should say, for example, "I want to talk to Mr. C. H. Smith, 220 Victoria Avenue, Brandon," or "I want to talk to Mr. C. H. Smith, telephone number 2351, 220 Victoria Avenue, Brandon."

The Long Distance operator will repeat the details of your call, and if the distant town can be reached immediately, you will be asked to hold the line. If not, you will be informed that you will be called by the operator. Then hang up the receiver.

Special Night Rates—

Night rates apply on all calls from 6.00 p.m. to 4.30 a.m. and all day **Sunday**—during which time the charges are 40% to 50% less than the week-day Station-to-Station rate.

No night rates are reduced on calls where the day rate is 25 cents or less.

Appointment and Messenger Service—

An Appointment call is one on which you specify a definite time at which you wish the connection to be established. The Long Distance operator will endeavor to make an appointment with the called person for the time specified and a report will be given you advising when the called person will be ready.

A Messenger call is one for a person who cannot be reached directly by telephone. At your request the Telephone Department will arrange to send a messenger to ask the called person to come to a telephone to talk.

Appointment and Messenger calls are charged for at the Person-to-Person rate, plus the cost of sending the messenger, in the case of Messenger calls.

Report Charges—

A report charge may be made on uncompleted Person-to-Person calls to points outside the boundaries of Canada and the United States, where failure to establish the connection is beyond the control of the Telephone System.

The Manitoba Telephone System also reserves the right to make a Report Charge on uncompleted calls to points within the boundaries of Canada and the United States, when such calls are filed in such a manner as would deprive the Manitoba Telephone System of its legal revenue.

The Report Charge made in such cases will be approximately one quarter of the Day Person-to-Person rate.

To Reverse Charges—

A Person-to-Person call may be charged to the person at the called telephone if he will accept the charge. Requests to handle the call in this manner should be made when the call is given to the Long Distance operator.

A Station-to-Station call may be charged to the person at the called telephone, if he will accept the charge. If the rate is less than 20 cents the Person-to-Person rate will be charged.

Rates and Charges—

Charges are based on an initial period of three minutes (except to Saskatchewan points where the initial period is 2 minutes, and Person-to-Person service only is given). An additional charge is made where the time talked is in excess of the initial period.

If you wish to know the charges on a Long Distance call notify the operator when placing the call. When you have finished conversation and hung up the receiver the operator will compute the charges and call you back.

PHONOGRAM SERVICE

Phonogram Service provides an economical means of communication, if it is not necessary to speak to the distant party.

Phonograms will be transmitted during night hours only and will be delivered the following morning.

Phonograms may be sent to telephone subscribers at practically all points in Manitoba reached by the lines of the Manitoba Telephone System.

Charges for phonogram service cannot be made collect.

Rates are—50 words or less, 30c; each additional 10 words or less, 5c.

THE PAS— 50 words or less, 40c; each additional word 1 c.

CRANBERRY PORTAGE, FLIN FLON, SIMONHOUSE AND WANLESS — 50 words or less, 45c; each additional word, 1 c.

COLD LAKE and SHERRIDON—50 words or less, 50c; each additional word, 1 c.

Call "Long Distance" and ask for the "Phonogram Operator."

***Signifies that there is no message rate charge when calling the subscriber**

100%

That's What We Aim for in Publishing the Telephone Directory—to Have It 100% Correct

BUT—with the thousands of subscribers to be listed, changed addresses, and new numbers, it is easy to see why it is possible for an error to creep in here and there.

Your name, address and telephone number in this directory are most likely correct. But, if by any chance they are not, you'll do us a favor by telephoning or writing to our Business Office.

RATES FOR EXCHANGE SERVICE, WINNIPEG

	MONTHLY RATE			Service Connection Charge
INDIVIDUAL LINES	Wall	Desk	Hand Telephone

	Rate per Month
Business	$2.50

SCHEDULE OF RATES FOR MOVES AND CHANGES

of telephone and apparatus in Winnipeg, exclusive of Private Branch Exchange equipment

		Per Main Station Bus.	Res.
(1)	From one position to another in same room	$1.00	$1.00
(2)	From one room to another in same suite or premises where not conflicting with Clause 4	2.00	2.00
(3)	From one building to another, not exceeding 150 feet of exterior or 300 feet of interior wiring	3.50	2.50
(4)	From one suite or premises to another—**BLOCKS**	3.50	2.50
(5)	From one suite or premises to another where inside and outside wiring is in place and no change from original location required	2.50	2.00
(6)	Where both wire and equipment are in place and no work necessary other than at central office	1.00	1.00

(7) **RURAL MOVES**—Where facilities exist, actual cost not to exceed service connection charge.

(8) Where the above rates do not apply, a quotation will be given the Subscriber before the work is proceeded with, if desired.

(9) Extension Sets and Miscellaneous Equipment moved in conjunction with "Outside Moves" will take their respective service connection charge, otherwise the rates are the same as for Main Sets. (Moves involving change of address will be classed as "Outside Moves.")

FIRE DEPT CALLS (Winnipeg)
FIRE ALARMS ONLY 100
To give an alarm of fire, call 100, when you will be immediately connected with the Fire Signal Station. Give attendant answering, the address and the nearest cross street. In case of a block, give attendant the name of street and number thereon. In the event of not knowing street number, give name of street and name of nearest cross street.
SPEAK SLOWLY AND DISTINCTLY
DO NOT GET EXCITED
Be sure attendant gets the correct address
